

## Beginnings, Frosted Window, Rochester, New York

### Date

1952 (printed 1961)

### Primary Maker

Minor White

### Medium

gelatin silver print

### Description

A close-up image of a window pane covered in ice crystals at night. At the right of the image are four individual circular blobs that have a glowing appearance. The ice crystals form a circle on the window with the most detailed section along the right side. At the lower left is a glassy like surface that has the appearance of a puddle of

water.
