## Untitled Relief (Two Quails)

**Date**

n.d.

**Primary Maker**

Eugenie F. Shonnard

**Medium**

stone

**Description**

Stone relief of two quail-like birds among cactus. Two birds in profile face each other in the center. The bird on the right has a distinctive feather protruding from the top of its head like a quail. The bird on the left is bent towards the ground. Wavy lines surround the quails, and cacti grow in the top two corners. A scalloped border frames the scene.
